Process Safety 4.0

The 4th PTTES PSM Conference

Process Safety Excellence: The Challenge & The Opportunity

Increasingly, stakeholders, regulators and insurers are asking what companies are doing to improve the safety and reliability of high hazard facilities. The challenge is the complex interaction between systems, skills and culture to ensure that safeguards and barriers are effective when needed.

This 2-day symposium will address many of the issues facing our Industry with an agenda developed by the Technical Committee from:

Confirmed speakers include:

- Mr. Worawat Pitayasiri, PTT SEVP Innovation & Digital
- Mr. Attapon Jirawatjanya, Deputy Governor, IEAT
- Mr. David John PTTEP VP Process Safety & Assurance
“The Legacy of Montara”
- Ms. Sulo Belawan, PETRONAS Group Head of Process Safety
“Achieving Process Safety Excellence by Leveraging on Digitalisation”
- Mr Jonathan Feldon, AON Asia Regional Director
- Dr. Pannathai Khamdaengyodtai, Covestro Process & Plant Safety
- Mr. Thodsapol Chadchavalpanichaya, PTTES Principal Consultant
- Dr. Pratap Sathiah, Shell Technical Safety Manager
- Mr. Praveen Arora, Manager – Technical Safety, Thai Oil
- Mr. Todd Yu, Area Sales Manager, DNV GL
“Quantitative Risk Assessment (QRA) adds value to Process Safety Excellence”

Process Safety 4.0

The 4th PTES PSM Conference

Process Safety Excellence: The Challenge & the Opportunity

The conference will encourage sharing of best practice, knowledge and experiences from operating companies, designers and external consultants through a series of presentations and interactive sessions.

New for 2019:

Process Safety Survival Game

An interactive team game where your decisions directly influence the outcome of an event. Compete against your fellow attendees to ensure a safe outcome and win prizes.

Who should attend:

This symposium is relevant for staff throughout an organization, from senior management to design, engineering, operations and maintenance personnel, and is appropriate for everyone responsible for, or that can have an impact on Process Safety. Individuals with some previous Process Safety &/or Asset Integrity will benefit the most from this event.
